On July 20, several members of the Fluvanna School System, traveled to Richmond to attend the Governor's Conference on Education. Central Elementary staff members, Betty Loving, Above & Beyond coordinator and Shari Lascano, second grade teacher, presented the staff-created Above & Beyond program to conference participants. Above & Beyond (A&B) is geared toward critical thinking and expanding the curriculum beyond the SOLs.

Maurice Carter, acting superintendent, along with School Board members, Barbara Gibbons and Bertha Armstrong, attended the conference to support the teachers. In addition to supporting staff, there were opportunities to learn from other divisions across the state. Presentations varied from classroom practices, community engagement, integrating technology and ideas for dealing with severe budget cuts in this economy.
